

“UNRAVEL”

The “UNRAVEL” method is a process that we use to aid in comprehension of complex text. The student can follow these steps before, during, and after reading a passage.

- **UNDERLINE** the title (**Read** it!)- or circle it
- **Number** your paragraphs
- **Read** questions- circle question words, underline clues
- **Annotate**
- **VENTURE** through the passage-Read each paragraph, then stop and write down a few words that can trigger your memory of the action. What’s going on?
- **ELIMINATE**- process of elimination will lead you to the answers.
- **Let** questions be answered- complete sentences (RACE method)
